

Alchemy is committed to achieving the best balance between protection of the environment and economic development for all our activities globally. As a key part of our business strategy we will set standards of environmental excellence, consistent with the principles of sustainable development.

To fulfil this commitment, wherever we operate, we will:

- **Comply with and, where appropriate, exceed the requirements of applicable legislation, regulations and other policies, codes and standards to which we subscribe.**
- **Progressively develop, implement and maintain environmental management systems that are consistent with internationally recognised standards.**
- **Integrate environmental processes throughout all aspects of our activities.**
- **Identify and assess the potential environmental effects of our activities and manage environmental risk.**
- **Continually improve and regularly monitor, audit and review our environmental performance, including the reduction and prevention of impacts and more efficient use of resources.**
- **Promote environmental awareness among our personnel and contractors to increase understanding of their roles and responsibilities in environmental management.**
- **Promote our environmental progress and performance through liaison with and public reporting to the Government and community**
